

# Fostering Recovery -the challenges

A Community Resource Centre  
Prospective

# Resource Centre Model

A central support for its members within their community

# WRAP -A community resource centre prospective

- Practice
  - Used as part of an empowerment process – to enable individuals take responsibility for themselves –Wrap is a structured system –a tool
  - Run as a training programme
- Challenges
  - WRAP readiness (readiness/willingness to engage in a planning process)
  - Will the process of Recovery bring someone to this place? - how do you support this?
  - WRAP is a tool –it needs to be used –how do you support individuals sustain wellness and recovery post training
- Experience
  - User choice
  - Recognise that the Basin Club is providing a space to practise and that supports wellness and recovery –a vehicle that supports wellness recovery actions (wellness toolbox) without the documented structure of a plan

# Involvement of others

- WRAP demands the participation/compliance of others
- Advanced directives
- Legal implications
- Who is setting the recovery agenda?
- Paradigm shift?

# In summery

- Our experience
  - Practise of the underlying principles and ethos of recovery
  - The importance of a user led agenda
  - Responding to needs by what is wanted
